

COMSTOCK REALTY GROUP

FROM THE MOMENT you open the door and walk into the COMSTOCK REALTY GROUP office you know that this is a very different real estate firm. You're greeted with a wide open office where you can see wall to wall and front to back. No small cubicles, no fancy woodwork, no solid oak doors for privacy, no fancy intercom systems, no separation of Associates from clients, no sterile environment. This is a down-to-earth family owned real estate firm, not a corporate owned office, with friendly Associates ready and willing to help you. Sure there are piles of paper on the desks, but what else would you expect from a busy office?

Look past the clutter and around the office, which has memorabilia, paintings, sculpture, statuary, books and artifacts from the 'Old West'. Frederick Remington and Charlie Russell live here! The owners, Don Rick (1959-2006) and Stan Gudmundson, have tried to show their love for this period in the history of our country and make their office not only a place where clients and their families will feel welcome, but also a place their Associates can enjoy and be proud of. And, as if you haven't already guessed, the name COMSTOCK does come from the COMSTOCK LODE. The miners in those days worked hard for their pay. To the owners, the name COMSTOCK signifies the American tradition of hard, honest work dedicated to offering the best service available to our clients.
